

BROOKLYN MINISTER  
HEALS SICK

Physical perception which makes the physical healings seem to be developed with more frequent regularity of late years, as indicated by newspaper reports in world affairs. The most recent is by Rev. Charles W. Dane of St. Mark's Congregational Church in Brooklyn, N. Y., whose cures by simply laying on the hands has aroused considerable attention throughout the East.

Old English Law Regarding the  
Guilt When Husband Pres-  
ent, is to be Amended.

(By Associated Press)  
LONDON, March 28.—(By Mail).—The old English law known as the doctrine of coercion which declares that a wife can not be guilty of a crime when it is committed in the presence of her husband seems likely to be amended now that it has been brought to light in the case of Mrs. Owen Peel, who was acquitted of co-operating with her husband in defrauding bookmakers by placing racing bets by means of forged telegrams.

The case has aroused widespread interest and many papers devote editorials to it.

The Times says: "This legal protection of the married woman, a remnant not of chivalry but of serfdom, has more than served its time now that women become justices of the peace, serve on juries and even elected members of parliament."

The Daily Express learns that parliamentary opinion is definitely in favor of an amendment of the law placing men and women on terms of equality in regard to criminal responsibility and that proper legislation will be introduced at the first opportunity.

"Perfectly ridiculous and out of date," was Lady Astor's comment on the case. "If women demand sex equality in the political and professional world, they should also be prepared to accept the same treatment as men at law."

## OF PERCALE AND DIMITY

Tonopah women percale and white checked dimity make this pretty dress for little miss. It is in two pieces. The blouse of the dimity has a Peter Pan collar and turn-back cuffs adorned with feather stitching of silk floss. A white silk cord ending in small tassels is laced across the front of the bodice and a patch pocket at one side maintains that practical things can be pretty.

Turks Delighted With Arrival  
of Millionaires as They  
Spend Money Freely.

(By Associated Press)  
CONSTANTINOPLE, March 21.—(By Mail).—Americans and Turks were delighted by the arrival here recently of two big American tourist ships carrying together more than 1000 passengers, among whom there were said to be more than \$0 millionaires.

Revival of the American tourist business had been awaited here with great anticipation and the Americans received more than a cordial welcome from their compatriots connected with relief work as well as from the keepers of Turkish bazaars anxious to sell souvenirs to their visitors.

One of the ships sailed into the harbor of Constantinople with its band playing "Dixie," while the Americans in the Near East relief orphanages on the waterfront waived American flags.

The Americans found Constantinople harbor filled with the warships of every nation, a country still at war and a city with more than 150,000 refugees. Passengers on both ships look up collections for emergency relief, gave donations for orphans and refugees and promised to send their winter clothing to Constantinople when the trip was over.

The merchants were all excited over the arrival of the Americans and fairly pulled the tourists into the shops in their eagerness to sell.

Some of the visitors entertained Rear-Admiral Bristol, American high commissioner, and Mrs. Bristol in the Muscovite, famous Russian restaurant.

The American visitors were served by girls who were formerly members of old Russian aristocratic families who came to Constantinople two years ago as refugees.

As a parting gift the tourists sent to the Near East relief orphanages on the Bosphorus the favors given at the various dances.

## AS COMET SWINGS ITS TAIL

Speed Records of Celestial Bodies Are  
All Broken When They Turn  
Around the Sun.

One of the most remarkable things about comets is the presence of a tail. Not that all have them. Many possess such appendages, and some make marvelous displays. However, the tail appears to be a transient affair somehow due to the comet's proximity to the sun. A periodic comet which displays a magnificent tail at one apparition may show little or nothing of this character upon another occasion.

As a typical comet swings swiftly round the sun, the tail seems to swing around as well. Always it stretches from the comet in a direction away from the sun. As the tail may be many millions of miles in length an explanation is needed to cover the question as to how it is possible in a few days to swing the tail through an arc of 180 degrees. Some comets are extraordinarily rapid movers, as they round the sun. Thus, the periodic comet of 1843 reached, in its swing round, the wonderful velocity of 200 miles per second. However, it is more particularly the rapid angular swing of the tail that needs explanation. If the tail is precisely the same object throughout, a 72-hour swing of a hundred million miles of tail through two right angles would mean that the terminal particles covered an arc considerably over 150,000,000 miles long at the rate of some 600 miles per second.—Scientific American.

The anti-tobacco campaign in Chicago has hit the rocks. An alderman introduced a resolution in the city council making it unlawful for women to smoke in public, and femininity immediately exploded in a burst of protest against such an unjust curtailment of their liberties. It worked.

Answering criticisms of their deflation record, the democrats deny that they started the deflation and say that if they are to be criticised at all it should be for not starting it sooner.

CHINA FINANCES  
BECOMING ACUTE  
THROUGH LOANS

Foreign Loan Never Contracted  
Without Immediate Clamor  
on Part of the People.

(By Associated Press)

PEKING, March 6.—(By Mail).—Interest in the financial situation and the handling of government loans has become so acute among the Chinese people that a society has been organized called the people's financial supervision society. No foreign loan is ever contracted by the ministry of finance without an immediate clamor on the part of the people and all financial dealings of government officials and of the government banks are regarded with suspicion by popular organizations. In order to allay this suspicion and keep informed on all matters of finance the new society has been formed with the express purpose of supervising the financial operations of the government and of the two government banks, the Bank of Communications and the Bank of China.

The immediate program of the supervision society is one of opposition to the \$50,000,000 loan on the salt surplus which is being negotiated by Minister of Finance Chang Hu. At the first meeting of this self appointed supervisory board several resolutions were passed condemning the salt surplus loan, demanding investigation and publicity, and warning the Chinese Banking association. Representatives were appointed to express to the Banking association and to the ministry of finance the attitude of the people toward the loan and government finances in general. Full publicity in every financial operation is the outstanding demand of the people's financial supervision society.
